Quest Unified Communications Business Unit History

- Currently 3 major solution areas
 - Archiving, Discovery & Compliance Solutions
 - Migration & Coexistence Solutions
 - Management Solutions
- Decade of solid growth & execution
 - 2000 – acquired MessageWise
 - 2000 – acquired FastLane
 - 2003 – acquired Discus Data
 - 2004 – acquired Aelita
 - 2005 – acquired Wingra
 - 2006 – acquired Aftermail
 - 2007 – expanded into BlackBerry, Windows Mobile, Sendmail, Postfix
 - 2007 – acquired Proposion, ScriptLogic
 - 2008 – expanded into Microsoft Office Communications Server (OCS), SameTime, Jabber, Public IM, Financial IM
 - 2008 – acquired Akonix, Netpro
 - 2009 – TBD

Quest Solutions for Unified Communications:

Simplify adoption and management of Unified Communications infrastructures

Migration

- Exchange, Notes and GroupWise mailbox migration and coexistence
- Analyze and plan
- Reduce storage
- Ensure performance
- Restore from backups
- Bulk migration to consolidate shared data

Management

- Diagnostics and resolution to ensure messaging health
- Measure, analyze, audit and report
- Granular recovery from backups
- Eliminate mailbox quotas and PSTs
- Data leak prevention and policy controls

Archiving, e-Discovery and Compliance

- Email preservation and file storage optimization
- Messaging compliance and policy enforcement
- e-Discovery of information for legal purposes

Spotlight on Messaging Diagnostics & Problem Resolution

The screenshot shows the 'Spotlight on Messaging' application window. The main area displays a topology diagram for 'spocs1.qc.kan.ca.qsft' with various server groups like 'Federated Partners', 'Spocs1-pool', and 'Spocs2-std'. A 'Test Results' window is open at the bottom, showing a table of test outcomes.

Target	Status	Test Time
multi-jpn	Succeeded	9/15/2008 1:10:09 PM
mailbox-role	Succeeded	9/15/2008 1:10:09 PM
e2k7natscc	Succeeded	9/15/2008 1:10:08 PM

allroles2k8	Succeeded	9/15/2008 1:10:09 PM
2k7nat-ger	Succeeded	9/15/2008 1:10:09 PM
2k7nat-2k8ger	Succeeded	9/15/2008 1:10:09 PM

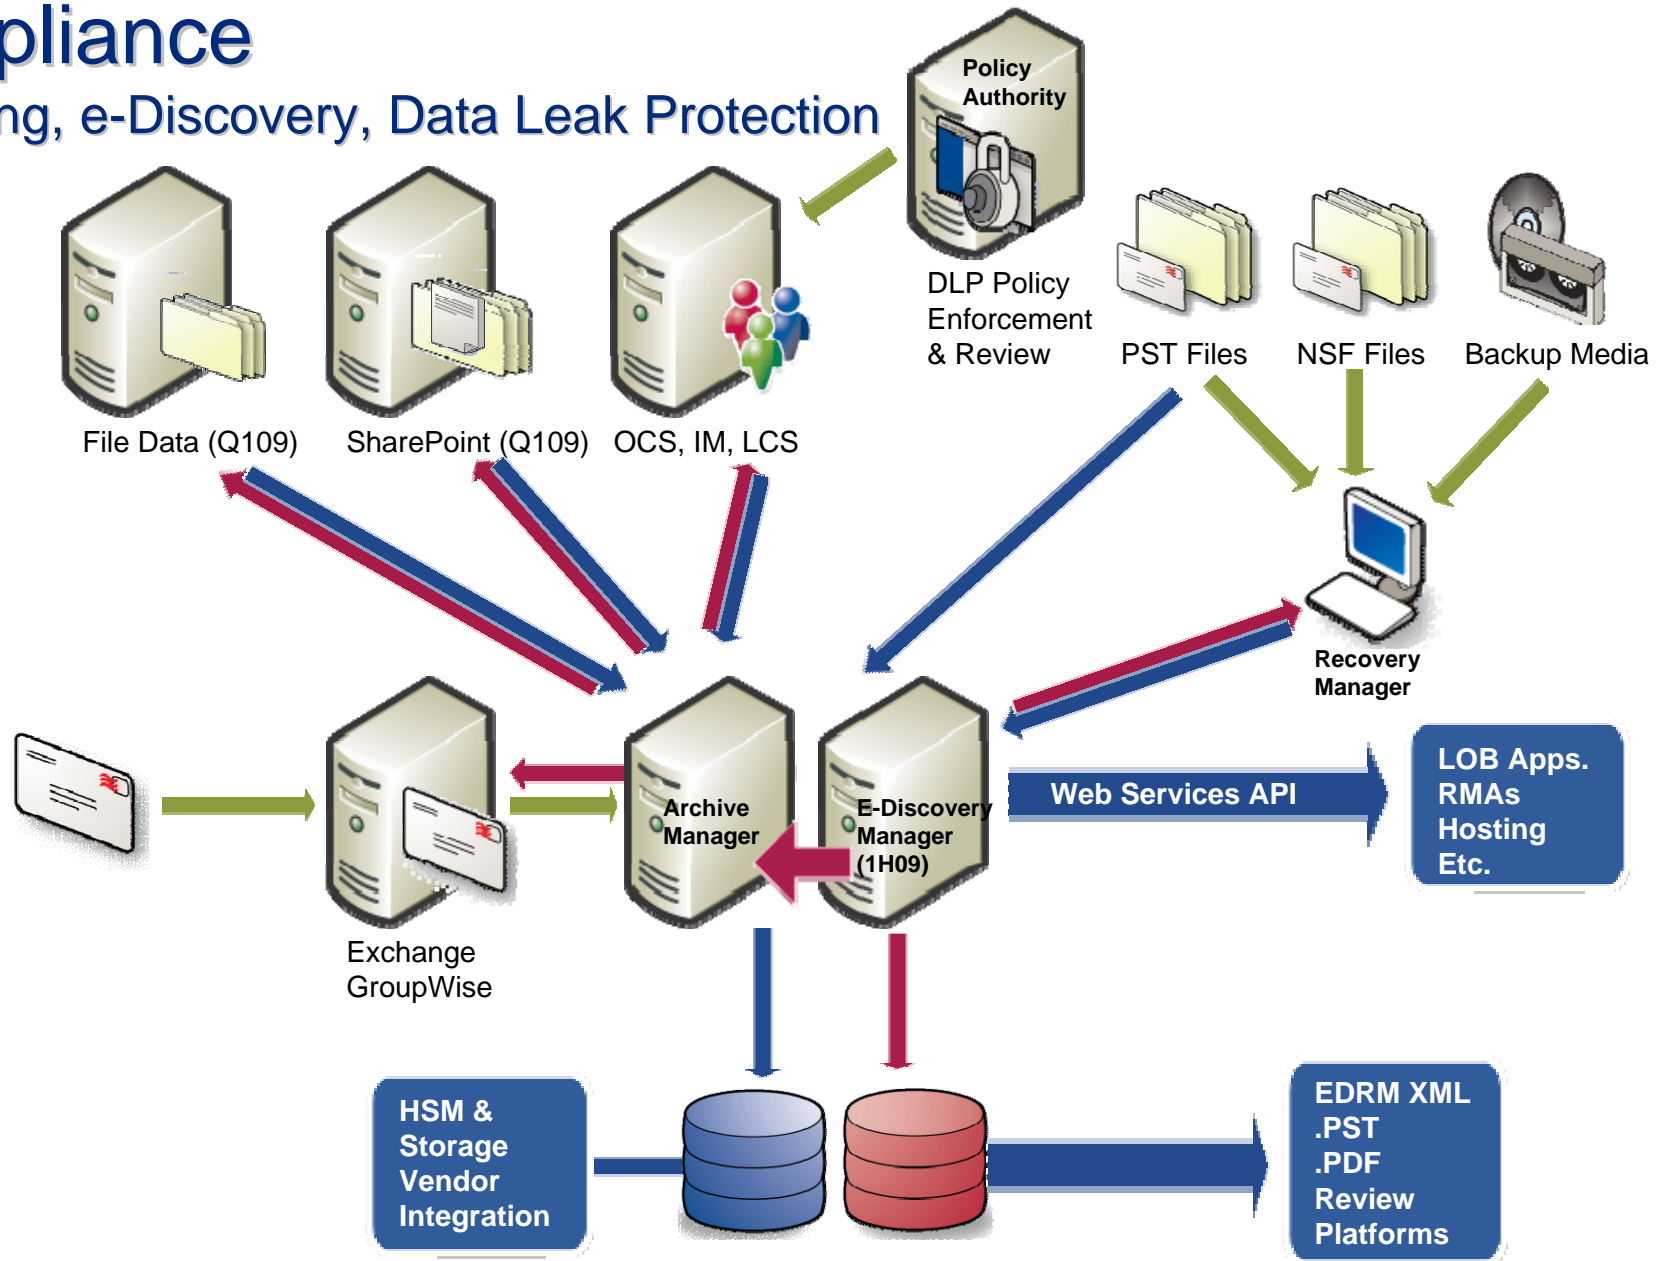

The screenshot shows the 'Spotlight on Messaging Reports' application window. The main report is titled 'Exchange Physical Memory Utilization' and includes a line graph showing 'Physical Memory Usage (MB)' over time. The graph shows several data series with varying trends, indicating memory usage patterns across different servers or components.

URL Block List/Allow List Settings

- Enable URL Block List
[Edit Block List Entries](#)
- Automatically enter URL in Block List when incorrect response or response timeout to call

- Automatically update URL
- Send URL Block List to A

Managed User Alert Text
The URL you have just entered is in the block list.

- Notify an administrator via email

- Enable URL Allow List
[Edit Allow List Entries](#)

Policy Filters and Rules

Block all events sent or received by any user

- That are a certain file type
- That are during certain times
- That are in a specific type of conversation
- That are only sent or only received
- That are using a screen name that matches a template
- That are using a specific IM feature/application
- That are using a specific service provider
- That are with a specific user, domain or group
- That are with an external user
- That are with specific screen names
- That contain inappropriate language
- That contain credit card numbers

User Policies

- Default policy action:
- Allow all communications unless blocked by a policy
 - Block all communications unless allowed by a policy

[Configure Allowed Client Versions](#)

[Configure Global Logging Options](#)

[Configure File Type Definitions](#)

[Edit Inappropriate Language Filter](#)

[New Policy](#)

Policy Name	Last Modified	Event Type	Applicable Objects	Action
Block SPIM and Malware File Transfers	2008-03-25	File transfers	Managed users (within VPN or federation)	Block Edit Disable Delete
Block SPIM and Malware Text Messages	2008-03-25	All events	Managed users (within VPN or federation)	Block Edit Disable Delete
Block - Keyword IPO	2008-03-24	All events	Managed users (within VPN or federation)	Block Edit Disable Delete
Block - FT outbound	2008-03-24	File transfers	Managed users (within VPN or federation)	Block Edit Disable Delete

Policy Alerts

- Notify the managed user with an alert
 - Use the default policy notification (For default messages, see Gateway Message.)
 - Custom alert text (500 characters maximum):

- Notify an administrator via email

[Cancel](#) [Back](#) [Next](#)
